Hi there,

I'm reaching out on behalf of the San Francisco-based all-electric autonomous vehicle company [Cruise](#) to invite you to a **virtual meeting on Thursday, March 23rd, from 5:30 to 6:30 pm.**

At this meeting, **Cruise will share updates** about its ridehail service, answer questions and hear about transportation needs in your neighborhood. Last year, Cruise became the **first AV company to offer a driverless ridehail service** in a major U.S. city, and it's currently offering rides in the evenings to the western half of San Francisco.

Cruise is committed to using its fleet to positively benefit our communities. Since 2020, Cruise has **delivered more than [2.3 million meals](#)** to residents and families in need, thanks to its partnerships with the San Francisco-Marin Food Bank and SF New Deal. Many of these deliveries also **support local restaurants.**

We'd love to connect to update you about Cruise's service, hear about your priorities and how we may be able to work together.

**Can we count you in as attending?** To RSVP, please reply to this email. We will send you the meeting link closer to the March 23rd meeting.

Hope you can make it!

Omar
