PROJECT DESCRIPTION

The proposal is to construct a vertical addition of approximately 533 square feet and enclose an existing exterior spiral stair at the rear of the existing building.

PLANNING CODE SECTION 174 requires that conditions of approval are complied with consistent with other controls of the Code. When constructed, the existing building encroached 7 feet 2 inches into the required front setback and was issued Variance No. 98.993V in 1999 with a condition of approval that any additional expansions shall require a variance. The proposed vertical addition will not encroach into the required front setback but will expand the subject building's envelope beyond that permitted by Variance No. 98.993V. Therefore, a variance is required.
