Hello Community Members,

Over the past several months, **CleanPowerSF** has been bringing a life-sized, bright green apartment set to events and neighborhoods throughout San Francisco, encouraging residents to SuperGreen their apartment or home with 100% renewable electricity.

**Join us for our final SuperGreen experience on Tuesday,**

**September 12 between 8 a.m. and 5 p.m. at the Civic Center Plaza across from City Hall!**

- Upgrade to 100% renewable electricity service
- Take a selfie in our SuperGreen apartment
- Post to social media and receive a free giveaway

We are so grateful to have had the opportunity to bring the **SuperGreen experience** to many neighborhoods in San Francisco. We were able to upgrade many customers to SuperGreen and had meaningful conversations about electricity bills and the clean energy transition with community members.

We hope you can join us on September 12 for our final SuperGreen experience! Please share this invitation with your networks.

Can't make it? [Learn about going SuperGreen today. >>](#)

Thank you!
