PROJECT DESCRIPTION

The project proposes to remodel existing house with one story vertical addition; selective removal of interior elements and lower portion of existing basement.

Planning Code Section 134 requires that the property maintain a rear yard that is 45% of the lot depth or average of adjacent buildings, but in no case less than 25% or 15 feet, whichever is greater. The proposed work encroaches into the required rear yard at the second level. Therefore, a variance is required.
